

Your contribution through the *Steele Memorial Foundation's Grateful Patient Program* helps to enhance the level of care provided to you and your family and the community in the future. Financial gifts raised through this program allow the Foundation to purchase state-of-the art medical equipment and technology the hospital could not have afforded otherwise.

Your verbal expressions of gratitude expressed to the individuals who made your care at Steele Memorial Medical Center exemplary are greatly appreciated, however public acknowledgement of their efforts can allow for additional recognition by their coworkers and peers. Please consider how a financial contribution to the "Grateful Patient Program" lasts forever, and benefits the many future patients of our healthcare services.

Grateful Patient Program

Yes, I wish to share my gratitude by supporting the Steele Memorial Foundation's Grateful Patient Program.

My contribution is in recognition of: _____

Name of department, employee, or physician.

Enclosed is my gift of \$ _____.

Grateful Patient Program

Steele Memorial Foundation

"I went to the Steele Memorial Medical Center Emergency Department with what I believed to be a severe flu. I was diagnosed with a ruptured appendix by the ER doctor, and within 2 hours I was in the operating room with Dr. Deutchman. He saved my life. He is one of the best surgeons in Idaho and he knows his business."

Harry Lomonaco

Illness or injury can strike any family or individual at anytime. Knowing that help is readily available brings peace of mind. Receiving that help first hand from well trained, well equipped, and experienced care givers is a much more critical issue. Whether it is a life threatening illness or injury, or routine follow up care, how we are treated during these times creates lasting impressions. At Steele Memorial Medical Center and Steele Memorial Clinic, quality of care and patient satisfaction are of paramount importance, from hospital admission to discharge, and on all Clinic visits.

Many patients and their families often request information on how they can recognize or express their gratitude toward a particular department or individual who made a difference to them during their healthcare experience.

As a healthcare provider we recognize that it requires a team effort to provide quality health care, and that often much of the effort occurs behind the scenes. It is in this spirit of team recognition that we have developed the ***Steele Memorial Foundation's "Grateful Patient Program"***.

Not only does the "Grateful Patient Program" allow recognition of a single individual, department, or physician, but it allows you to show your appreciation in a way that helps others to receive the same high quality care that you received.

Because of the generous contributions from past patients and hospital patrons, the level and variety of services that Steele Memorial Medical Center can provide has been greatly enhanced.

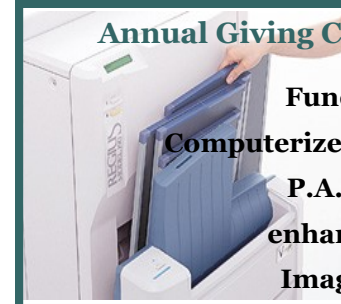

Grateful Patient Program

"Grateful Giving to benefit our community & families."

Annual Giving Campaign Gift

Funds purchased an advanced Fetal Monitoring Unit for our Obstetrical Program .

Annual Giving Campaign Gift

Funds purchased a Computerized Radiography and P.A.C.S. Unit , greatly enhancing the hospital's Imaging capabilities.
